

Product Specification

Ord.-No.: **111 661**

Specification: Roof conductor holder, V2A-Alu, Ø 8 mm, type B
with adhesive pad, height of conductor leading 20,5 mm

Performance: Roof conductor holder according to DIN EN 62561-4 for installing round conductors to metal roofs and metal surfaces.
Type with Niro-Clip conductor fastener and adhesive pad.

The adhesive area on the smooth surface should be thoroughly cleaned before applying the support for example with isopropylalcohol! Processing temperature +15 to +25°C!
Other important information is given in the installation instructions.

Material of conductor fastener	stainless steel V2A
Material of base	aluminium
Dimensions of base	Ø 68 mm
Height of conductor leading	20,5 mm
Fit of conductor fastener	Ø 8 mm
Conductor leading	loose, type B
Weight	40 g
Standard reference	DIN EN 62561-4
Packing unit	100 units
